Next Meeting

Our March 13 Th. **Wednesday** meeting will be held at Baker Motors located at 1511 Savannah Hwy. in West Ashley, Charleston. The meeting will start promptly at 7 PM. Come join in the fun!! . (852-4000)

and some "interesting" color combinations. We are in the planning stages for a tour of the PDI this summer - stay tuned.

In this issue you will find a New Member intro flyer. Please run of a few copies to carry in your car to put on Porsches you see during your daily travels. as was discussed at the last meeting any member who recruits four new members during the next three months will have

POLE POSITION

I had a chance to drop by the Delivery and Inspection Center at the airport last week - of immediate interest is that they are very busy. Sales are continuing on the rise! A walk around the warehouse disclosed lots of new options - two new "AREO KITS" , Carbon Fiberpackages

the club pay next year's dues!

Palmetto Region's member database is currently being updated and we would like to include telephone numbers. This will help notify members of special events that may occur from time to time. Please call Cathy Chick (556-3077) or me (881-7695) if you would like your number in the database. **Also**, in order to move the club onto the Information Autobahn, we are seeking the donation of a computer system. I suspect that more than one member has a 386 or 486 based system gathering dust which will be more than adequate for our modest requirements. Again please contact Cathy or me if you can help.

The weather seems to be hinting that good times are -a-coming so be sure to do a bit of preventive maintenance on the trusty steed . Even (or perhaps especially) cars that aren't driven much need a little check - up when Spring comes.

.Joe

DAYTONA ROLEX 24

Somewhere between 10 and 400 Palmetto region members fled southward for the Rolex 24 held 3-4 Feb. at deceptively sunny Daytona International Speedway. Lead by repeat offenders Al Trego, Bob Chick and Skeeter Rischer and ably assisted by Patte Regnery, the Palmetto campsite quickly established itself as the place to be for Porschephiles from near and far. Rituals established at Daytona's past were re-enacted (there was some drinking). old friendships were reestablished and new friends were made.

Club wrenches Gordon Friedman and Karl Troy toiled mightily in the pits in a gallant but sadly ill-fated effort(could it be due to the somewhat questionable choice of motive power(BMW))?

The "FOR SALE" lot in the Porsche Paddock included two Ruf Turbos, the bargain model being available for merly \$114,500.

Amid all the action a race was going on somewhere that while not the overwhelming Porsche victory of years past, did have some interesting moments. The final inning Ferrari dash left it less than 2 minutes behind the winning Olds Aurora- a 1% victory.

Skeeter, Bob, Patte, and Big Al at Daytona..

As things wound down Sunday afternoon (and we were being run out of the infield) the faint cry of " Wait till Sebering" could be heard on the chilly breeze.
