NANCY'S NOTES

First of all I would like to thank everyone for their vote of confidence in electing me for President. The other Officers and I have already met and started our plans for 1984 and I think it will be a great year. As you can see by the calendar of events, Tuggy has planned an exciting year and has tried to plan activities to meet the varied interests of the club. Be sure to check the calendar now for upcoming events.

In addition to the monthly events, I would like to have a monthly business meeting. I plan to keep the business short, announce upcoming events, and then have a short program such as a tech session or a slide presentation. Please let me know what you would be interested in having done at the meetings. This club is for you and I want it to meet your interests. We will meet the first Thursday of every month at 7:30 P.M. Each month the meeting will alternate from having it at Parker Porsche to having a dinner meeting at a local restaurant. You will be reminded of the meeting in the newsletter.

I look forward to seeing all of you at the rally on the 26th ! Your participation will help make this a great year.

NANCY

REMEMBER CHRISTMAS ?

The annual Porsche Club Christmas Party was held on Dec. 9th at Geoff and Kearby Parker's. The party, one of the most popular Club events, was fun, festive, and full of Christmas cheer. There were many old and new members in attendance this time around. (Perhaps some of the old members didn't recognize one another out of their auto-cross duds). The food, a hallmark of the Christmas party, was absolutely delicious again this year. Many thanks to Nancy Davidson who made sure that the table was full and that everyone was passed wonderful tidbits.

After much socializing, the group gathered around the tree to see what Porsche Santa had brought everyone. Each person could choose either a gift from under the tree, or, if they saw something they liked, a gift that someone else had already chosen. This meant that the Carrera sunglasses changed owners many times, but oddly enough, no one wanted the strip-tease glasses. When everyone had a wonderful - or not-so-wonderful - present President Ross Davidson began the serious business of handing out the year-end awards. The Competitor of the Year award was a tie; Sam Kelley and Ross Davidson; they'll split possession of the trophy. The Red Baron award, given to the member who has contributed the most to the Club and who is not an officer, went to Nancy Davidson. The last order of business was to announce the 1984 Officers. We all are looking forward to a banner year - and next year's party

COMPETITOR of the YEAR AWARDS

The purposes of the Competitor of the Year Award are two-fold; first, to recognize the individual who excels in automotive/Porsche-oriented events, and second, to provide an incentive for members to participate in club-sponsored events.

The award is presented annually at the region's Christmas Party to the individual who has accumulated the most points in the year's events.

Additionally, an appropriate gift will accompany the award.

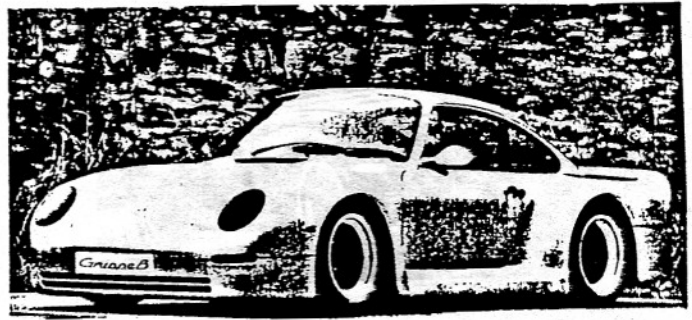

The following rules will apply to the competition:

Events

- * Only those events designated by the activity chairman will be counted in the scoring.
- * Events should be varied to include auto-crossing, rallies, concours, tech quizzes, and any other events designated by the activity chairman.
- * A minimum of six (6) events will be designated as competitor of the year events.

Scoring

- * Competitors will be broken down into classes in those events that are adaptable to different classifications.
- * The winner of a class will receive 200 points; the last competitor in the class will receive 100 points; the remaining participants will be awarded points between 100 and 200 proportionate to the number of participants in the class.
- * Rallies and tech quizzes present a unique problem since it prevents the organizers and workers from participating. They will receive 150 points; only for rallies and tech quizzes.
- * In the event of a tie the board of directors will decide the outcome.

COMPETITOR of the YEAR STANDINGS

Nancy Davidson.....	150
Ross Davidson.....	175
Susan Easterlin.....	100
Sam Galbreth.....	100
Sam Kelly.....	166.66
Carol Mathisen.....	183.3
Tuggy Mathisen.....	200
Geoff Parker.....	200

* Next Competitor of the Year
event: Mystery Rally Feb 26

For those of you who have read of Porsche's recent interest in the wild blue yonder, and for the benefit of any stiff-wing drivers out there, here's some more detailed info on the PFM 3200 - Porshe Flugmotor.

The PFM 3200 is basically a current spec 3.2 liter 911 engine that looks as if it came out of a new Carrera. Well, almost. Given aviation's need for reliability and redundancy there are some interesting twists here and there. While the engine uses Bosch K-Jetronic fuel injection the ignition system is a unique dual Marelli electronic system that uses sensors to determine crankshaft position and rpm, as well as manifold pressure and temperature; twin-plug heads are fitted. Another interesting bit concerns the camshafts; in the PFM they are gear-driven...not chain-driven. Beyond these the differences are minimal: two alternators are used and are supported by a pair of batteries.

A variety of reports are floating around about this engine. One has it that there will be a whole family of PFM powerplants, up to and including a 230-hp turbocharged version. Another maintains that Porsche is even contemplating a sport plane. However it works out, flight tests already completed have shown the PFM to be very well suited to aviation. Indeed, compared to the standard Lycoming-equipped Cessna 182, the PFM-equipped plane recorded equal to slightly better performance while using 15% less fuel, a fact made all the more significant because the PFM can operate on 90+ octane auto fuel - not the much more costly 100 octane aviation fuel.

Marques Four Ltd

December 20, 1984

Dear Porsche Club Members,

We at MARQUES FOUR LTD. are pleased to announce our merger with PARKER-CART MOTORS to create a complete German automotive center.

Our association will enable us to extend to you the same quality service as in the past while serving additional needs through our Auto Sales and Parts Departments. We fully intend to complement our Service Department with the most knowledgeable technicians available and coupled with our new facility we will accomplish our goal - "TO SERVE YOU BETTER!"

Our new facility, called "AUTOMETRICS", will open January 2, 1984. We will be moving the week prior. "AUTOMETRICS" will be located at 59 Washington Street which is at the corner of Washington and Calhoun Streets, one block over from East Bay Street. Please make note of our new telephone number - 722-4888.

We have enjoyed your patronage and look forward to serving your future needs and meeting new friends. If you have questions or wish information about our exciting new venture please feel free to call.

Let us also take this opportunity to wish you and yours health and happiness in 1984.

Sincerely,

Harold Friedman

944
PORSCHE

Porsche presents the brand-new, breathtaking 944. A Porsche that is totally Porsche. A technological frontier from the inside out. An extraordinary new 4-cylinder Thermo-dynamically Optimized Porsche engine with 2.5 liter capacity. Revolutionary, state-of-the-art electronics in an integrated digital ignition and fuel management system. Powerful, controlled handling. Zero - 50 mph in 5.9 seconds. One of the lowest existing drag coefficients in the world today. The brand-new 944 — masterful, elegant, majestic. Inside and out — totally Porsche. Test it.
