Our May autocross went off without a hitch. We had 13 drivers, in 13 cars. It was a beautiful spring day, the sun shining bright, the course all laid out and the Air Force Security saying that we didn't have clearance to run. Well it only took a call from Col. Wilson to clear this matter up. **THANKS STEVE!!!** The race began. In the lineups were Porsche's, BMW's, an Audi and even a VW Bug. Of course Porsche won.... As the last two cars were lining up the clouds were rolling in fast, the race was on could we get their final runs in before the rain began?? Earl was the very last car out and the rain was coming down (too bad you had pulled the fuse out Earl, I bet you could have used those wipers about then!!). As he crossed the finish line Gordon had his truck picking up the pillows. The sky opened up and it poured.
